

## Nashville IMC Club Monthly Meeting

In this scenario, you are on an IFR flight you make frequently. But this time something goes wrong as you're setting up for the approach.

Knowing the correct procedure for dealing with this issue will be the difference between you busting the regulations and endangering the flight, or successfully completing the approach. We'll also have another great presentation from Tim Haller, American Airlines Captain, regarding Single-Pilot Cockpit Resource Management.

Also we'll have our App-of-the-Month segment and details of upcoming events and trips. You'll definitely not want to miss this month's meeting!

**Directions:** Meeting will be held in the offices of Nashville Flight Training. Please use map link to show location.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
